

Great Eastern Quays Topping Out Speech

“Thank you all for coming today and joining us in celebrating this key milestone reached on this exciting project.

For those who don't already know me, I am Bradleigh Coker, Project Director of Galliford Try Partnerships South East.

GEQ is an exceptional scheme and we thank our partners at Notting Hill for appointing us to deliver this landmark scheme.

Galliford Try Partnerships has a strong track record of collaborating with Registered Providers and others to deliver projects within the affordable housing sector throughout the UK, and GEQ is an excellent example of this.

From the outset of the project we have demonstrated to the local community that regeneration can benefit all and that the construction works necessary to enable this development can be undertaken creating as little disturbance as possible.

We are confident that the GEQ development will thrive as a functioning community following our completion on site. The mix of high quality new homes combined with the commercial units provided for the people of Newham will enable GEQ to become a real asset to the local community.

In our view, the scheme is a great example of effective partnership-working between stakeholders and cements our excellent relationship with Notting Hill in the provision of mixed-tenure homes across the South East.

I would like to extend my thanks to the whole project team, who are continuously working hard with all stakeholders to deliver the scheme.”
